

SERVICES AND OFFERINGS

Typically before purchasing any product or service, we are given a “menu” with information — and importantly, prices — from which we select. In healthcare, however, the cost and what we’re getting is all-too-often a black box inaccessible to patients.

In effort to make the Tia Clinic offering as clear possible, we created a transparent list of services with their respective price tags so there are no surprises. As our scope of practice expands and evolves, so too will this service list. Can’t find what you are looking for or have a specific question about pricing? Please email sayhello@asktia.com.
